BIO

My background is as a senior executive business leader with a depth and breadth of finance skills and a strong operations knowledge in manufacturing (hardware and software), IT (business systems) and HR. You would have a solid business operations right hand man that can execute strategic plans who can identify key issues quickly. A resourceful problem solver who simplifies complexity and finds a solid path forward with strong action-orientation. Brings large corporation experience to small and medium sized businesses to have an immediate, positive impact. An opportunity to make a significant contribution to the success of a business is the most important aspect of any role for me.

Credentials include a CPA, an MBA from Seton Hall University and an accounting degree from Villanova University. Over 25 years of experience in all aspects of business operations with a concentration in finance and accounting.
